# PRINCIPAL'S MESSAGE

"Knowledge will forever govern ignorance. And people, who mean to be their own governors, must arm themselves with the power which knowledge gives."

[James Madison]

The whole purpose of education is to teach the learner to think and not what to think. This is the fundamental truth and it has always been the endeavour of this college to instill right values in its students so that they develop a holistic personality and are ready to take on the challenges of the world in the future.

We have set out on an elevating and stimulating journey with the aim of providing our students an exclusive learning experience by teaching them to march ahead with positive attitude, skill, confidence, sensitivity and responsibility, imbuing in them values in order to create a learning community dedicated in building respectful and responsible citizens and empowering all learners.

The pursuit of the goals and objectives of this college is fiercely committed to pursue excellence in all the fields, be it in academic, sports, ethics or aesthetics. In this contemporary world where cut throat competition has become a part and parcel of life, it is of supreme importance that we teach our youth to be competent enough to stand tall amongst others with their extraordinary skills and come out victorious from the realms of this challenging labyrinth.

I wish the best of fortune, peace and prosperity to all our well wishers and to all associated with this college. I look forward to their unconditional support in talking this college to the fulfillment of its vision.
